PROFESSIONAL SUMMARY

Hands-on DevSecOps/Full Stack Web Developer delivering appropriate technology solutions for desktop and mobile products. Comprehensive knowledge of platform development and web-based applications. Innovative change agent with a unique mix of high-level technology direction and with willingness to learn any other frameworks that can be beneficial to myself and the company

_____

EXPERIENCE

DevOps DevSecOps & Full-Stack Software Engineer   Jun.2021-Present
Nexient,LLC

- Encouraged cross-collaboration across teams during our migration from on-prem to Azure cloud services. By further shortening time to market, our teams were better able to deliver early, with better quality products for our client.
- Assisted team with Pom files using maven to build artifacts in Azure Devops
- Performed DevOps Engineer I role for O'reilly Auto.
- Implemented multi-environment platform deployment for Dev/QA/Test/Perf/Prod/DR in Azure/ADO using Terraform/Terragrunt.
- Used Packer to create system images.
- Managed SE Linux rules to allow apps to run while setenforce = true.
- Verified code was working with Terratest, and Ruby spec tests.
- Implemented post deploy system config using bash script.
- Installed Crowdstrike and Nessus using Ansible.
- Tested security in applications using Snyk
- Applied TFLint to repos for errors before submitting
- Used Azure Kubernetes Service

Freelance Web Developer   Oct.2020 -Present Proteus
Themes,LLC
- Respond to questions from customers who submit tickets about their WordPress Themes
- Maintain JavaScript and CSS for WordPress themes

Lead Maintenance

Pilot Flying J. Graham, NC   Oct. 2014 - Oct. 2019
- Coordinated activities with other departments to ensure that services are provided in an efficient and timely manner

- Managed a staff of 10 employees. Tasks included leading 1:1 meetings, assigning daily tasks(Safety checks, checking the grounds, and store cleanliness) and employee schedules for work

_____
